

RGB LED Extension

ITEM#: WRL-LEDX

powered by  Western Robotics

Congratulations on your purchase of the RGB LED Extension. This RGB LED is specifically designed for a custom placement of a ultra bright super flux wide angle RGB LED on your RC model. The RGB LED Extension has a 12" extension cable and compliments all Western Robotics' products that provide a **4 pin connection** for an external RGB LED such as the Hercules Linear BEC (HBECL) product. This provides you the option of having multiple RGB lights to be placed anywhere on your RC model of your choice.

Features:

- **Ultra Bright Super Flux RGB LED**
- **12" long extension 4 conductor cable**
- **Light, flexible compact size**
- **Easy installation with detachable 4 pin connector**

Package Contents:

- RGB LED with 12" Extension
- User Disclaimer Card

Installation:

Connect the 4 pin connection of the RGB LED Extension to the 4 pin male connector on the Western Robotics' product that support a RGB LED extension (sold separately). Securely mount the RGB LED and direct it in the general direction of the user during operation.

Disclaimer and Limitation of Liability

Western Robotics Ltd. shall have no liability or responsibility to the user of any other party or entity with respect to any liability, injuries, loss or damage, cause or alleged to be caused, directly or indirectly, for equipment sold, furnished or supplied by Western Robotics Ltd.

Notwithstanding the above limitations, Western Robotics Ltd. is not liable for damages incurred by customers or to the customers. Western Robotics Ltd. is not liable for the particular equipment involved.

Neither Western Robotics Ltd. nor this document makes any expressed or implied warranty, including, but not limited to the implied warranties of merchantability, quality or fitness for a particular purpose.

Specifications are subject to change without notice.

Limited Warranty (North America Only)

The RGB LED Extension is guaranteed to be free from defects in material and workmanship for a period of 90 days from the date of purchase accompanied by the proof of purchase or invoice. Warranty does not cover damage due to improper use or incorrect installation.

During the 90 day warranty period, if the product shows defects caused by abuse, accident or misuse, it will be repaired or replaced upon Western Robotics Ltd. sole discretion, at a service charge not greater than 40% of the current retail list price. Please ensure to include your contact information before any repair(s) or replacement(s) can be conducted. Under no circumstances or condition will the purchaser be entitled to consequential or incidental damages. In no case shall our liability exceed the product's original cost. We reserve the right to modify warranty provision without notice. Because Western Robotics Ltd. has no control over connection and use of this product, no liability may be assumed nor will be accepted for damage resulting from the use of this product, user accepts all resulting liability. If you attempt to disassemble, modify or repair this unit yourself, it may void the warranty.

For warranty service on Western Robotics product(s) in, out or off warranty period, please send the defective unit(s) along with the proof of purchase and a description of the problem, postage paid, to the given address below.
