

Power Switch XT

ITEM#: WRL-PWRX

powered by  Western Robotics

Congratulations on your purchase of the Power Switch XT. This power switch extension is specifically designed as a remote turn on and off switch for the Hercules Linear BEC. It can also be used as general use low power on/off switch for any signal or power line. It consists of a self lock mounting rocker switch with a 12" two wire extension cable. The cable is terminated with a 2 pin plug for easy installation. This provides you the option of having a remote switch that can be placed anywhere on your RC model.

Features:

- **Power Rocker Switch rated at 3A/250V**
- **12" long extension 2 conductor cable**
- **Light, flexible compact size**
- **Easy installation with 2 pin plug**
- **Self lock mounting without hardware**

Package Contents:

- Power Switch XT - 12" Extension
- User Disclaimer Card

Installation:

Connect the 2 pin connection of the Power Switch XT to the 2 pin male connector on the Western Robotics' product that support an extern on/off extension (sold separately). The polarity of this connection is not of concern. Securely mount the rocker switch that can be easily accessed.
